CAREER OBJECTIVE

To Secure a challenging position where I can effectively contribute my skill as software professional, possessing competent technical skills

PROJECT INFORMATION

- **Online Fitness Trainer System**

Online Fitness Trainer System is a web-based platform designed to help users achieve their fitness goals with proper guidance. The system includes two major sections: Weight Gain and Weight Loss, allowing users to choose their fitness journey. It provides personalized nutrition plans, professional trainer support, expert guidance, and promotes a healthy lifestyle. The platform helps users track their progress and follow customized workout routines based on their body requirements.
